Project objectives

Date	14 November 2022
Team ID	PNT2022TMID23957
Project Name	Project – Car Resale Value Prediction

- **To understand the problem to classify if it is a regression or a classification kind of problem .**
- **To know how to pre - process / clean the data using different data pre - processing techniques .**
   Applying different algorithms according to the dataset .
      To know how to evaluate the model .
      To build web applications using the Flask framework .

By the end of this project:

• You'll be able to understand the problem to classify if it is a regression or a classification kind of problem.

• You will be able to know how to pre-process/clean the data using different data preprocessing techniques.

• Applying different algorithms according to the dataset

• You will be able to know how to evaluate the model.

• You will be able to build web applications using the Flask framework.
